**Adam:**

Susan asked me not to take too much of your time because she wanted you available for Explo. That is why I asked Warren plus he is already in Houston for that one week. If you think you may be pushed to go to Explo, we could talk with Mike, Roberto, or Mark. Let me know, I don't want to get burned out.

Also, have you heard anything from the PRP Group at US Oil about their video security system and who that had set this up for them.

Thanks

**Gary Moore**
